

The Masonic Services Association
of the United States
Hospital Visitation Program

To: Masters, Wardens, Secretaries and Masonic brethren of the
District of Columbia

Subject: Sunday morning escort and visitation service at the Veterans Medical Center (VA Hospital), 50 Irving Street Northwest, Washington, D.C. Entrance to the hospital is through the atrium. Most of our work is done in the nursing home, The Community Living Center, which is located on the second floor of a connected building. The chapel is located on the 3rd floor of the main building of the hospital, across from the main elevators. Please have your members sign for the Volunteer sign in book. It is located at the guard desk in the nursing home.

MWB Richard Fletcher and his Lady Judy or PGM Jesse Villarreal will be in the atrium to assist you and answer any questions you might have. Chapel services are scheduled to begin at 10:00 am. Please report between 9:15 and 9:30 am on the Sunday your lodge is scheduled. If you need to contact Jesse, his cell number is 703-282-6366.

You will notice that no lodge is scheduled for most holiday weekends. Nor were any lodges scheduled in mid-December to accommodate the GL installation. However, it would be greatly appreciated if any brethren could find the time to help with the program on these and any other days they feel they can join another lodge. Thank you.

If there is a problem with your scheduled visit please contact me at (703) 282-6366, as soon as possible. Please don't wait until the Sunday morning your lodge is scheduled to inform me that your lodge can not make its commitment. Changes can be made if requested in a timely manner.

My Brethren please make every effort to support this program. This helps in paying on the obligation we owe to our veterans, who gave of themselves to keep our beloved country free. Let us give a little of ourselves. This program is not only for the officers and members of the lodges but their families, if they chose. Most of the residences at the hospital, especially those in the Nursing Home, have no family members in the area and when a stranger steps into their room, just to say hello and asks about their welfare, they are very grateful and thankful, that someone cares. This program means a lot to the patients and residences of the VA Medical Center. WE need your continued support.

Fraternally,

Jesse Villarreal, PGM
